

## Java

```
class Solution {  
    public int longestCycle(int[] edges) {  
  
    }  
}
```

---

## JavaScript

```
/**  
 * @param {number[]} edges  
 * @return {number}  
 */  
var longestCycle = function(edges) {  
  
};
```

---

## C++

```
class Solution {  
public:  
    int longestCycle(vector<int>& edges) {  
  
    }  
};
```

---
